DETAILED ACTION

Election/Restrictions

1. Applicant's election of Group I, claims 1-10 and 22 in the reply filed on December 9, 2005 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
2. Claims 11-21 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on December 9, 2005.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-10 and 22 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Rice et al (US 6,092,604) (see figures 1-7 and column 4, lines 18-27).

As for claims 2-3, screen wire 46 has offset and non-offset overlapped portions.

As for claims 4-5, base pipe 12 constitutes "mandrel" as recited.

As for claim 7, welds 24 at opposite ends of screen wire 46 constitute "seals" as recited.

Art Unit: 3672

As for claim 8, the prepack sand 52 and screen wire 46 of the embodiment shown in figure 3 constitute the "filtering member" as claimed. Rice et al disclose in column 6, lines 4-5 that the prepack sand 52 may be resin coated and baked in place.

As for claims 9-10, see figures 3-4.
